

ТЕРРИТОРИИ

The diagram illustrates the symbols used on a cadastral map to denote different types of boundaries and land parcels. It includes the following elements:

- Blue line:** Represents the boundaries of existing land plots.
- Red line:** Represents the boundaries of a land plot to be formed.
- Red number '1':** Indicates a characteristic point of the boundary.
- Black dot:** Represents the number of a land plot within a cadastral quarter.
- Blue number ':37':** Represents the number of a land plot within a cadastral quarter.
- Green lines:** Represent the boundaries of zones with special conditions for land use.
- Orange line:** Represents the boundary of a cadastral quarter.
- Green number '44:00-6.593':** Represents the designation of a zone with special conditions for land use.
- Purple lines:** Represent red lines (likely indicating specific boundary types or features).
